

Slide 1

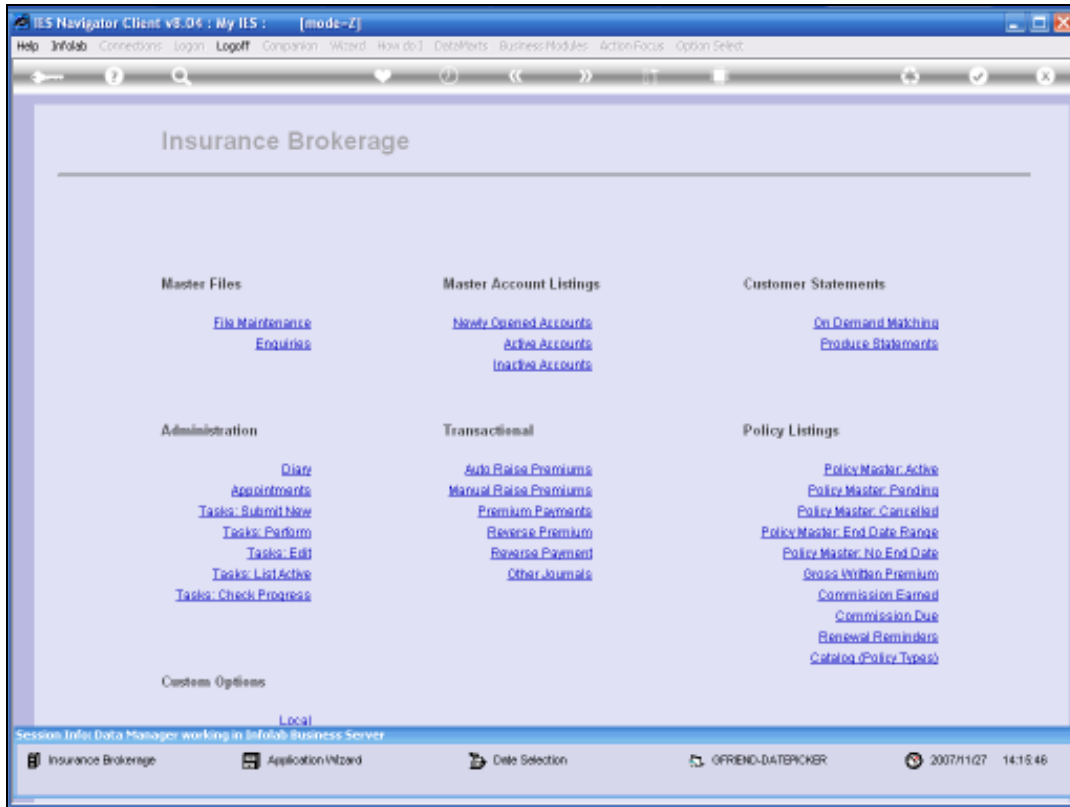

In this session we want to look at the Commission Earned Report. We can of course also see Commission Earned on Reports for the A P Creditor Accounts of the Fee Earners. But in this case the Report allows us to select a specific Date Range and will Report all Commission Earned by Fee Earner and by Currency.

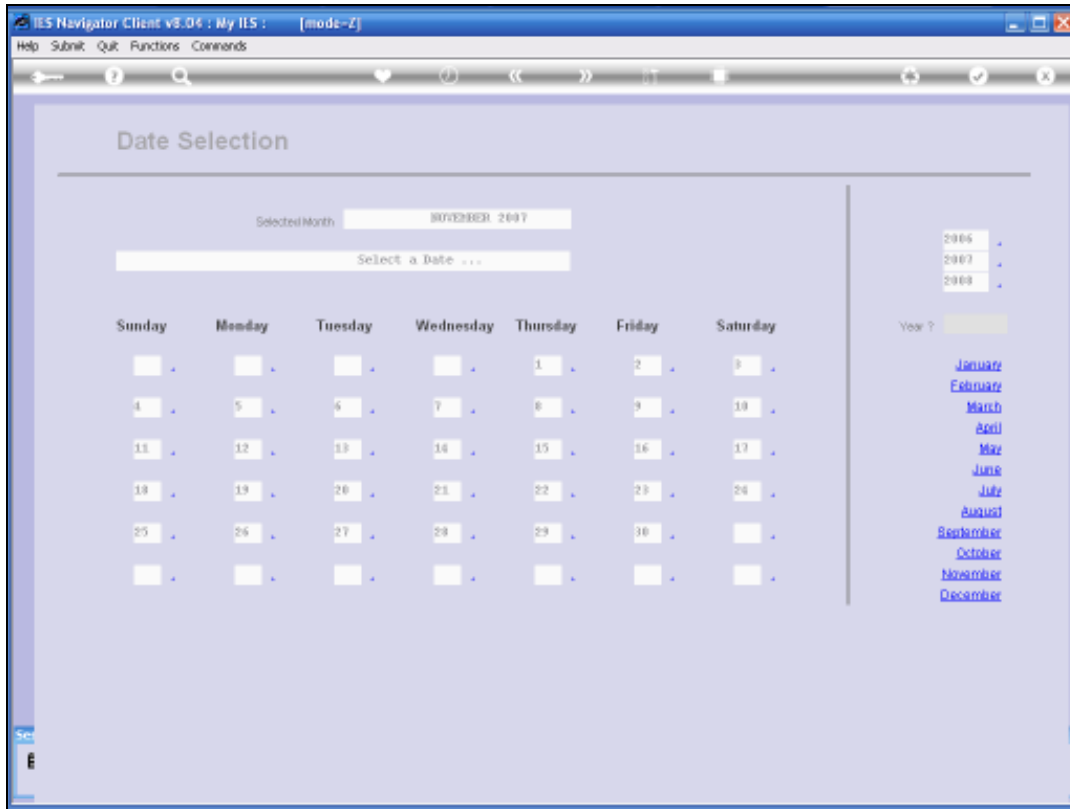

Slide 2

When we select this Report for Execution, we are reminded that Commission Earned is based on Premiums already raised and charged to Customer Accounts.

So if we should select Future Dates, then Premiums yet to be Raised in the Future will not be included in this Report.

Slide 3

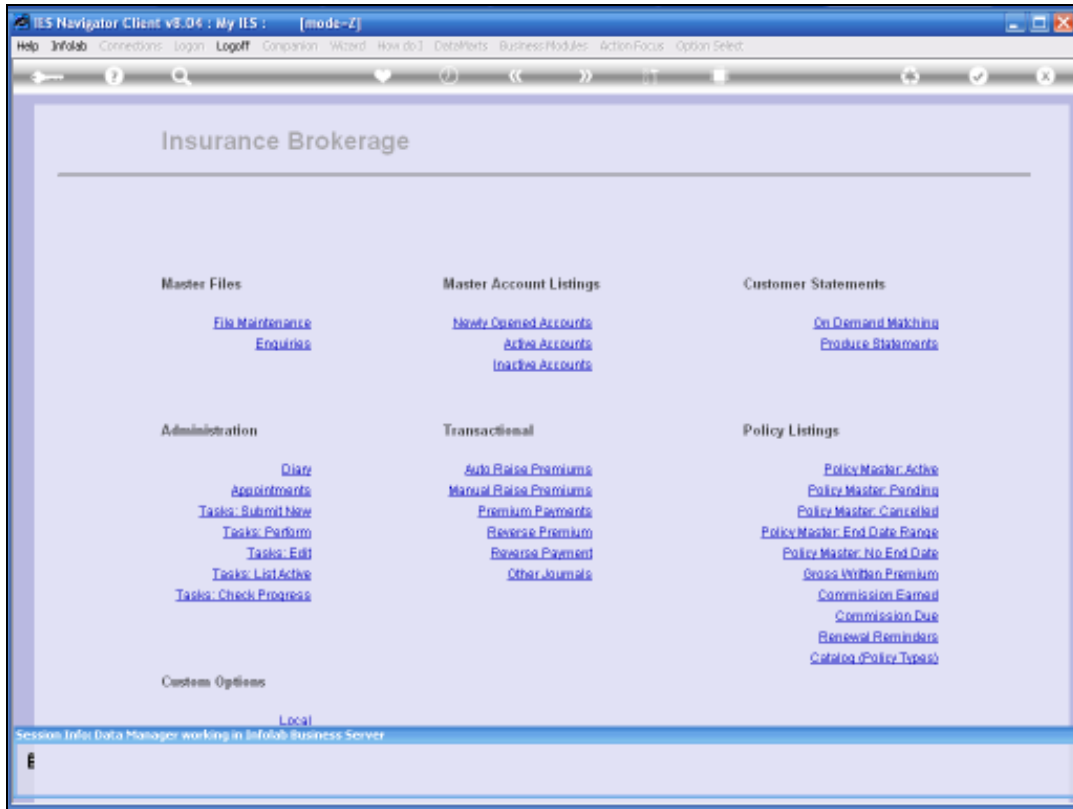

Slide 4

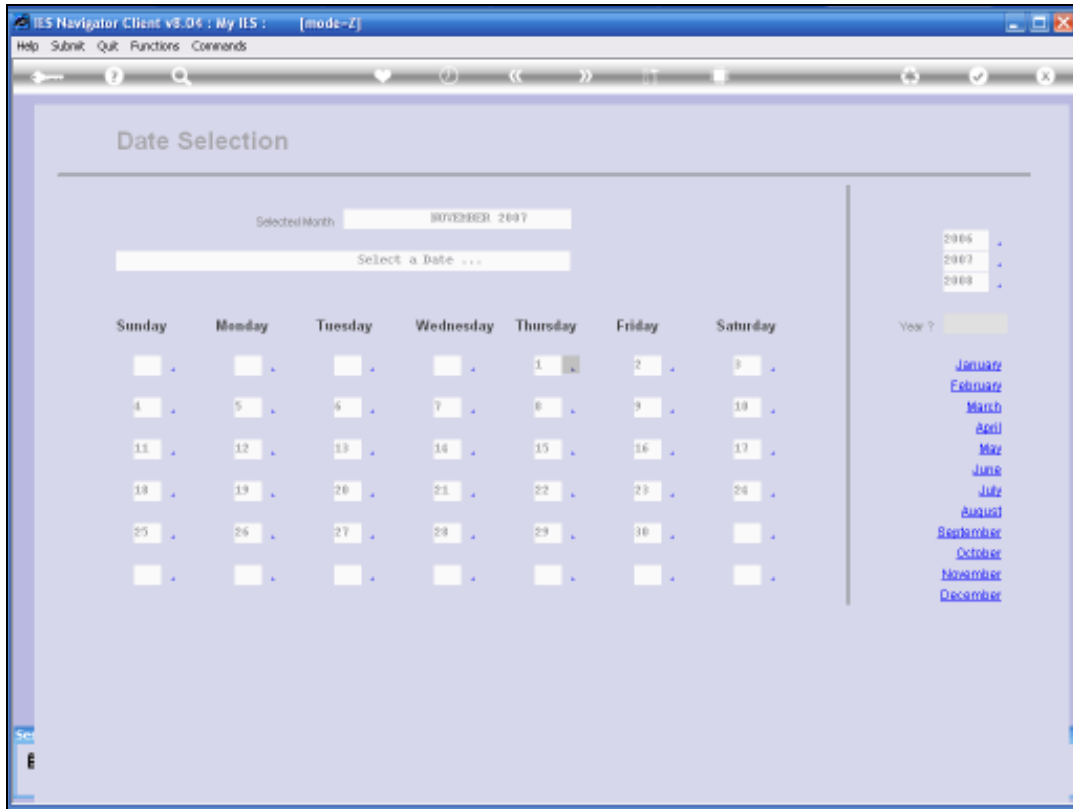

Although Future Dates do not make sense with the Commission Earned Report, we can select any Past Date up to a Current Date for any Period that you want the Report on and it is Date Based.
