

Slide 1

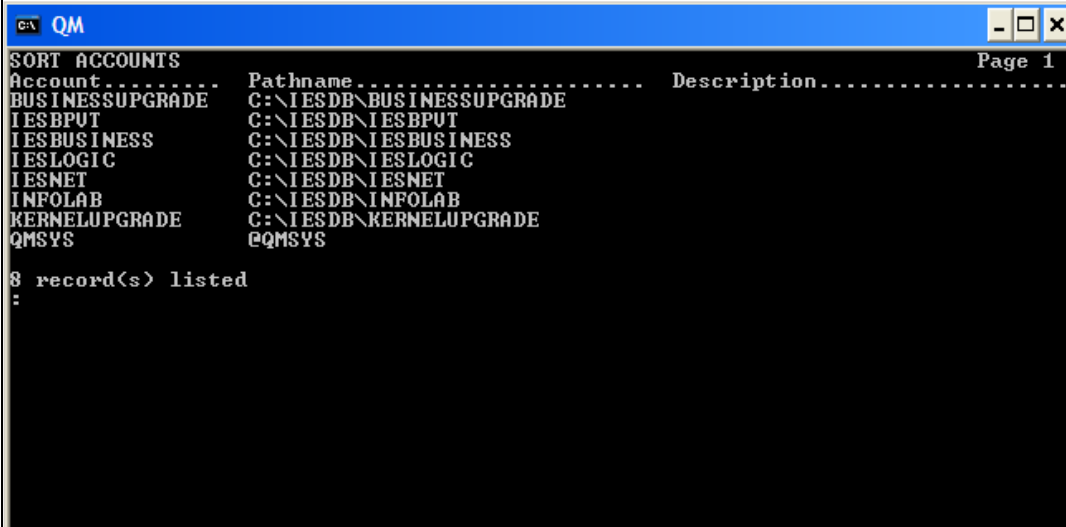

Slide notes: When we make a new Business Datamart, we register it in IES 1st, then we move a real Datamart into the Database, and then we register the new Datamart in the Database. In this tutorial, we show how we do that.

```
C:\ QM
:WHO
6 QMSYS
:
```

Slide 2

Slide notes: So, we are using a Console session and we are now in the QMSYS Datamart.

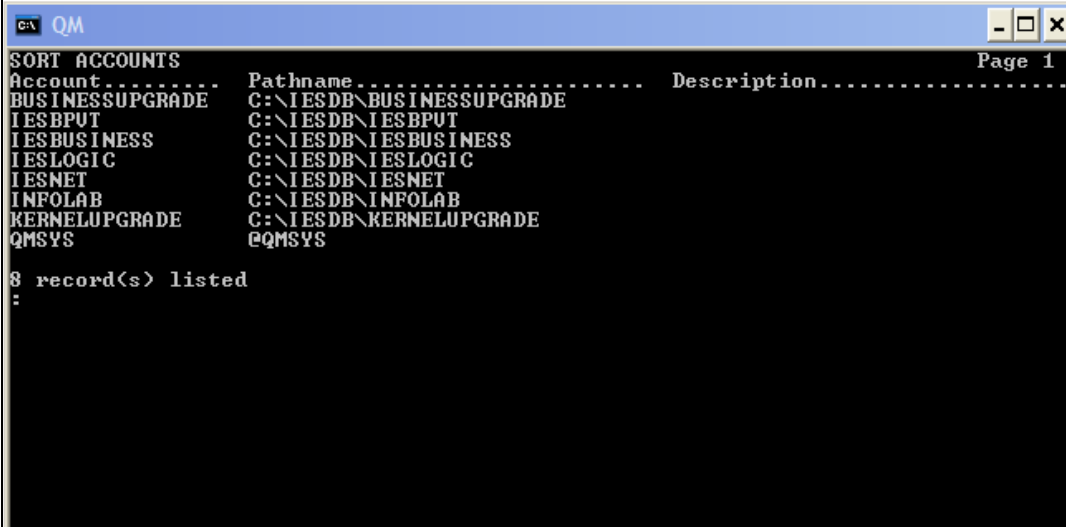

```

C:\ QM
SORT ACCOUNTS                                     Page 1
